

Profit Warning

During the first quarter of 2023, the Turnover and the Operating Profit from usual/existing operations are significantly increased compared to the corresponding period of 2022, mainly due to the expansion of the range of available products in the distribution sector. Profitability, excluding the results of the associated company Demetra Holdings Plc ("Demetra"), is expected to be improved, mainly due to the increase in Turnover.

No safe estimates on the final Profitability after Taxation can be provided, owing to the non-availability of all necessary information in relation to the expected results of Demetra, further to the non-availability of all necessary information on the respective expected results of Hellenic Bank for purposes of their inclusion in Demetra's results. The company will make further announcements in due course, once all necessary information is available.
