<b>ANNOUNCEMENT</b>
---------------------

### Profit Warning

In the first half of 2025, turnover is expected to decrease, compared to the same period in 2024, while Operating Profit from ordinary/existing operations is expected to decrease significantly, mainly due to the decrease in Turnover, but also due to the increase in Administrative Expenses, as a result of the expansion of the range of products available in the distribution sector. Profitability excluding the results of the associated company Demetra Holdings Plc ("Demetra") is expected to increase significantly, mainly due to significantly reduced Net Finance Costs.

No reliable estimate of final Profit after Tax can be given due to the unavailability of the necessary information regarding the expected results of Demetra. When the necessary information is available, the Company will make the appropriate announcements.
