ANNOUNCEMENT

Profit Warning

Compared to the corresponding period of 2024, during the nine-month period of 2025 Turnover is expected to register a decrease, while Operating Profit from usual/existing operations registers significant decrease, mainly due to decreased Turnover as well as increased Administrative Expenses as a result of the expansion of the range of available products in the distribution sector. Profitability, excluding the results of the associated company Demetra Holdings Plc ("Demetra"), is expected to be significantly increased, mainly due to significantly decreased Net Finance Costs.

No safe estimates on final Profitability after Taxation can be provided, due to the unavailability of the necessary information in relation to the expected results of Demetra. The Company will make announcements in due course, once all necessary information is available.
