ANNOUNCEMENT

Profit warning

Compared to the corresponding period of 2025, during the 1st Quarter of 2026 Turnover is expected to be marginally decreased, mainly due to the armed conflict between the USA, Israel and Iran, in the region of the Arab Gulf, which has a negative impact on the overall business environment, while Operating Profit from usual/existing operations is expected to remain at approximately the same levels. Profitability, excluding the results of the controlled company Demetra Holdings Plc ("Demetra"), is also expected to remain at approximately the same levels.

No safe estimates on final Profitability after Taxation can be provided, due to the non-availability of all necessary information in relation to Demetra's expected results. The Company will make announcements in due course, once all necessary information is available.
