ANNOUNCEMENT

Profit warning

Compared to the corresponding period in 2025, during the first nine months of 2026, Turnover is expected to remain at approximately the same level, while Operating Profit from ordinary/ongoing operations is expected to increase, mainly due to a higher gross profit margin and a decrease in Administrative Expenses. Profitability, excluding the results of the controlled company Demetra Holdings Plc ("Demetra"), is also expected to increase.

No safe estimates on final Profitability after Taxation can be provided due to the unavailability of all necessary information in relation to the expected results of Demetra. Once all necessary information is available, the Company will make announcements in due course.
